OCEAN MARINE INSURANCE TAX RETURN

CDI FS-005 (REV 12/2002)

FOR CALENDAR YEAR 2002
TAX DUE DATE JUNE 15, 2003**ADJUSTMENT OF OCEAN MARINE INSURANCE TAX****California Revenue and Taxation Code Sections 12103, 12104 and 12105**

12103. Basis for computation. Except as otherwise provided in Section 12105, the tax shall be computed each year upon the average annual underwriting profit of the insurer from ocean marine insurance during the preceding three calendar years.

12104. Computation on three-year basis. If the insurer has transacted ocean marine insurance in this State in each of the three calendar years immediately preceding the year in which a tax return is required to be filed, the tax shall be computed as follows:

- (a) Divide the average annual premiums of the insurer from ocean marine insurance written by it in this State during the preceding three calendar years by the average annual premiums of the insurer from all ocean marine insurance written in the United States during such calendar years.
- (b) Multiply the insurer's average annual underwriting profit from ocean marine insurance written within the United States during the preceding three calendar years by the figure derived in (a).
- (c) Multiply the amount derived in (b) by 5 percent.

12105. Computation on less than three-year basis. If the insurer has not transacted ocean marine insurance in this State in *each* of the three calendar years immediately preceding the year in which a tax return is required to be filed, its tax shall be computed on the basis of its premiums and underwriting profits in the last complete calendar year. As soon as the insurer comes within the terms of Section 12104, the taxes computed under the provisions of this section for the two preceding calendar years shall be adjusted to equal the amount of the first tax computed under Section 12104. The adjustment shall be shown as an addition to, or a credit against, the tax computed upon business done in the third calendar year or as soon thereafter as possible.

COMPUTATION

If the amount of tax for year 2002 is subject to adjustment for years 2000 and 2001 (Section 12105), compute below the adjusted amount of tax and carry the total to page 3, line 19a.
